S02	More issue with HVAC, blowing very hard on stuffy and warm. Need consistent circulation. Needed some more concrete examples of how fiduciary duty is established	
S02	A topic worthy of more time. Improve diversity of panel	
S02	All sessions can be improved. How? Not sure. But no one is perfect!

S02	<p>Slide content mch too small, cannot read any content and large box speaker or pole blocked 25 percent of the screen so all that content not seen. Deborah, keep the mic near your mouth. You gestured nonstop so the volume of your voice was sometimes ok but mostly too soft because mic too far from your mouth. We strained to hear your too soft voice so it was hard to stay engaged. The material was much too basic and obvious for the audience, Deborah. The audience was sophisticated and we wanted more high level advice and insight please. Sound transmission too loud and distracting from conferences in rooms on both sides, including laughter and just the lectures. Bill, what is hot tubbing? Phrase used not explained just a sentence</p>
