Question: Additional Comments

Additional Comments:

- Too much generalization & not enough specificity.
- some people on the panel like themselves too much.

Additional Comments:

This comment is not limited to this session. Having the materials would be better. Each presentation had good powerpoints but rather than needing to take notes ~~it~~ it would be better to have ~~the~~ a copy - can be electronic ~~instead~~ or paper.

Additional Comments:

Wonderful!

Additional Comments:

Best program I attended today.
This could have been two sessions - a lot covered.
Would like to have seen example of TAR
