

Comments for Session: E02

Question: Additional Comments

Additional Comments:

Fantastic!!!

Additional Comments: - No power point or hand out materials

- too many war stories or living from the past

- Speakers do not talk into the microphones.

Additional Comments:

I liked that there were no slides - made it easier to concentrate on the speakers.

Mix up the order of speakers - one speaker didn't participate til the end making it seem awkward.

Additional Comments:

Very helpful. I think adding a powerpoint or photos to show examples of the various things mentioned would have enhanced the presentation.

Additional Comments:

As they discussed visual presentation can drive the points home however no presentation or visual aides all discussion.

Additional Comments

Additional Comments:

I arrived very late to program so not fair for me to comment on presentations. Would like a handout,

Additional Comments:

enjoyed the examples. Would have loved graphics

Additional Comments:

Too many "war stories"
Too much "ego" driven insights
Need more real preparation all presentations

Question: What subjects would you like to see addressed in future Construction SuperConferences?

What subjects would you like to see addressed in future Construction SuperConferences?

Do this one again

What subjects would you like to see addressed in future Construction SuperConferences?

Would be good to have a media consultant
actually do a training session for lawyers/clients
on dealing with media.
