

Comments for Session: E17

Question: Additional Comments

Additional Comments: - Speakers neglect to talk into the microphone
- Could not hear moderator.
- The panel had real difficulty communicating their material in an organized, coherent manner. The panel could not stay on track & wandered around.

Additional Comments:

Content was disorganized + practical information was limited. Panelists were good, but moderator didn't coordinate presentation

Additional Comments:

Moderator was not effective. Terrible voice and just went on and on. I usually expect the moderator to move the session along and to be able to keep my attention. The panel was good.

Additional Comments:

Discussion got sidetracked by questions about CCR - needed to stay focused on Elders Risk

Additional Comments:

• LIGHTS TOO BRIGHT
• PRESENTATIONS ARE TOO LONG. 1 HR SUFFICIENT IN AFTERNOONS

Comments for Session: E17

Additional Comments

Additional Comments: Extremely important presentation with fantastic panel members. Perfect. However, I would give them another session to also discuss, CGL, Subguard, OCIP and CCIP. Once again, these panel members are the "right" ones for this.

Additional Comments:

SALIENT DISCUSSION TO SENSITIVE MATTERS

Additional Comments:

~~THE~~ THE AON PANELIST WAS KNOWLEDGEABLE BUT THE MODERATOR AND OTHERS DID NOT HAVE A SOLID UNDERSTANDING OF CONSTRUCTION INSURANCE. I HATE TO BE CRITICAL, BUT THE KNOWLEDGE WAS NOT THERE.

Additional Comments:

Poorly organized presentation. The presentation just wandered through various insurance coverage questions in no order and with little depth. Nothing new or compelling was presented.

Additional Comments:

As a non-expert, some additional definition around the terms would have been useful.

Comments for Session: E17

Question: What subjects would you like to see addressed in future Construction SuperConferences?

What subjects would you like to see addressed in future Construction SuperConferences?

The subject matter was fine, this Panel just did a very poor job of delivering or communicating the material they prepared for us. Very disappointed.

What subjects would you like to see addressed in future Construction SuperConferences?

- * Contract delivery mechanisms + how to choose the best one
- * Pitfalls / hot spots in AIA + other form contracts

What subjects would you like to see addressed in future Construction SuperConferences?

OCIP) insurance options
CCIP) also - subguard

Good job on getting them here!

Mr. D. i

What subjects would you like to see addressed in future Construction SuperConferences?

THIS SESSION COULD HAVE GIVEN EXAMPLES OF CONTRACT BUILDER'S RISK REQUIREMENTS.
