Question: Additional Comments

Additional Comments:

Spend more time addressing how the incident report can be protected from privacy

Additional Comments:

~~coffee~~ would have been appreciated.

Additional Comments:

This was a great program that should have been better publicized as an offering in the conference. I almost missed it trying to register in the long line.

Additional Comments:

Would like copy of slides

Would also like to have more details on some of the points.

Additional Comments:

Noise from above was distracting.  
A little basic for my experience, but does raise good, important issues for smaller companies that have not thought about what to do in a crisis.
