

Session ID	Additional Comments	What subjects would you like to see addressed in future CSCs?
K02	Interesting and well done	
K02	Practical information regarding the status of the industry today and going forward	
K02	Lunch was very heavy, quality was good but the choice of meat and potatoes will lead to post lunch somnolence	Some slides difficult to see
K02	Content on slides way too small! Slides much too small could not see content. First speaker andrew very difficult to follow, poo speaker, and heard nothing new at all. All known facts and process described already happening in industry. Very hard to follow his pitch. Second speaker did not seem to present anything new. Robotics presentation the best, showing real results	
K02	None	Alternative level three Illijl
K02	Great information regarding future construction
