

Session ID	Additional Comments	What subjects would you like to see addressed in future CSCs?
S03	The presentation was too hyper focused on the benefits of SBE, which few disagree with. I would have preferred more focus on practical challenges that the law imposes on both GCs and SBEs	
S03	Presentation was good, but the audience managed to steer off course slightly. Conversation that resulted was good but we did not finish the topic	
S03	Room was too cold for some of the time	
S03	Panel was and are very informed with DBE and WBE strategies to make good faith compliance with the goals set forth in contracts with DBE and WBE programs and goals	Expand the session, it is the future of construction
