

Session ID	Additional Comments	What subjects would you like to see addressed in future CSCs?
S19	Moderator needed a mic and not turn head toward panel as voice too soft. Slides too small info could not be seen or read. Projector screen much too low! Audience heads in the way was bad planning. Lots of ums from the woman speaker. Despite repeated requests man spoke too softly away from mic. Australian speaker mumbled, hard to listen too. Good honest presentation and content organized well. Real world insight	
S19	Great panel!
