

Session ID	Additional Comments	What subjects would you like to see addressed in future CSCs?
S26	Would Like copies of the slides	
S26	Excellent speakers and really good content	
S26	All speakers were very well prepared. Good use of graphics. Kathleen Barnes presented great descriptions of the case law	
S26	The presentation was very good, engaging and informative. The only thing is that it could have been more balanced. It was a very pro contractor session. Perhaps have a panel of owners and contractors for balance	
S26	Like the hypothetical case studies, very effective	
S26	Interesting points. Lack of notice only waives affirmative claim and not defense. Not meant to reward owner for its delay. Contractor must cause delay. What is measure of damages for fracture to provide notice	Furious viewpoints related to LDs in cases of concurrent delay
S26	Freezing room!	
S26	Too cold	
S26	Very good program	
S26	Great presentation!
